Dressed: 300-500gm | 500-1kg | 1kg+

Only New Zealand, only the best

Independent Fisheries is one of New Zealand's largest deep sea fishing companies, catching and processing a variety of species from the cold, clean waters of the great southern oceans and delivering them to wholesale and commercial customers around the globe and Kiwis here in NZ.

We only sell what we catch.

With our origins as a local Christchurch fish and chip shop in the 1950s, Independent Fisheries is proud to be family owned and operated to this day.

We supply a wide variety of species, but our main products are hoki, southern blue whiting and arrow squid.

Focusing on a simple line of key, quality products makes us your go-to source for this core range; you won't find a more reliable supplier that has the volume and turnaround we do.
